# SANGEETA PATIL

**FULL STACK DEVELOPER | AWS CLOUD & IT SUPPORT**

Sharjah, UAE | +971 56 629 1534 | sangeetahiremath09@gmail.com
github.com/sangeetahiremath09-ui | linkedin.com/in/sangeeta-hiremath-201858267

## PROFESSIONAL PROFILE

Master of Computer Applications (MCA) graduate specializing in Full Stack Development, with approximately 10 months of UAE experience in computer engineering and IT support. Developed a complete React, Node.js, Express and MySQL banking application and designed a live WordPress business website. Hands-on AWS cloud practice includes compute, storage, networking, IAM security, databases, monitoring and content delivery. Seeking an opportunity in junior full-stack development, cloud support or IT/infrastructure support.

## CORE TECHNICAL SKILLS

Frontend & web: HTML5, CSS3, JavaScript, React, responsive design, WordPress

Backend & APIs: Node.js, Express.js, REST API integration; Java and basic Python

Databases: MySQL, SQL, T-SQL, Microsoft SQL Server Management Studio (SSMS)

AWS cloud: EC2, EBS, AMI, EFS, S3, CloudFront, IAM, VPC, RDS MySQL, CloudWatch, ALB, Auto Scaling, Route 53, CloudTrail, AWS Config

Development & IT tools: Git, GitHub, VS Code, Postman, JIRA, Hostinger, Microsoft 365, FortiClient VPN

## PROFESSIONAL EXPERIENCE

### COMPUTER ENGINEER / IT SUPPORT | United Arab Emirates

Approximately 10 months of experience

- Assisted with day-to-day computer and IT operations, responding to user issues and carrying out routine technical troubleshooting.
- Supported operational IT activities, software and system-related tasks, and coordination of technical requirements.
- Worked with SQL/SSMS and common workplace tools in support of routine technical and database-related activities.
- Used tools including Microsoft 365, JIRA and remote connectivity software as part of the support environment.

## FEATURED DEVELOPMENT PROJECTS

### SECURE BANK | Full-Stack Banking Application

React · Node.js · Express.js · MySQL

- Designed and developed a banking application with separate customer and administrator modules.
- Implemented registration and login flows, profile management, beneficiaries, fund-transfer workflows and transaction features.
- Connected React user interfaces to Express backend endpoints and structured MySQL data storage.

### ALMOONOOR | Live Business Website

WordPress · Hostinger | almoonoor.com

- Designed, launched and maintained a responsive business website with navigation, service information, contact features and WhatsApp integration.
- Managed website updates, menus and basic site administration through WordPress and hosting tools.

# SANGEETA PATIL

**PROJECT EXPERIENCE | AWS HANDS-ON PRACTICE | EDUCATION**

## ADDITIONAL WEB DEVELOPMENT PROJECTS

### TECHCONNECT | Frontend Web Project

- Built a responsive website interface using HTML, CSS and JavaScript, with attention to layout, navigation and user experience.

### TOURS & TRAVELS | Academic Website

- Created travel-related website pages and interface components as part of practical web development learning.

### DEPARTMENT WEBSITE | Academic Frontend Project

- Developed a responsive multi-page department website featuring Home, About, Events, Gallery and Contact/Join sections.
- Added JavaScript interactivity and practiced deploying web work using GitHub/Netlify.

## AWS CLOUD & SECURITY — PRACTICAL LABS

### IAM & S3 ACCESS CONTROL

- Created IAM users, groups, roles and customer-managed policies; practiced least-privilege permissions for Amazon S3.
- Tested policy outcomes involving explicit allow, implicit deny and explicit deny, including read-only access scenarios.
- Explored the aws:SecureTransport condition and HTTPS-based S3 access controls.

### COMPUTE, STORAGE & CONTENT DELIVERY

- Launched and managed EC2 practice environments; worked with EBS volumes, AMIs, EFS and S3 buckets.
- Practiced serving static content through S3 and CloudFront and explored application delivery with an Application Load Balancer and Auto Scaling.

### NETWORKING, DATABASES & MONITORING

- Practiced VPC fundamentals, RDS MySQL connectivity, Route 53 and CloudWatch alarms.
- Explored AWS CloudTrail and AWS Config for visibility into account activity and resource configuration.

## EDUCATION

### MASTER OF COMPUTER APPLICATIONS (MCA)

Specialization: Full Stack Development | Completed

### BACHELOR OF COMPUTER APPLICATIONS (BCA)

Karnataka University, Dharwad | 2022 | 85%

## ADDITIONAL LEARNING & PROFESSIONAL STRENGTHS

Cloud & DevOps: Advanced Cloud and DevOps coursework and hands-on cloud practice; preparation for the AWS Certified Solutions Architect – Associate examination (certification not claimed).

Working approach: Technical troubleshooting, documentation, continuous learning, communication, teamwork and responsive website development.

Languages: English, Kannada and Hindi.
